Impact on score ●○○○

Environment

Impact on score ●●●○

↗ **69**/100

Environment | Policies

Impact on score ●●●●

↘ **25**/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Standard policy on a majority of environmental issues
Quantitative targets set on energy consumption and GHGs
Quantitative targets set on materials, chemicals, and waste
Formal mechanisms to review and amend environmental policy
Environmental policy scope of application specified
Dedicated responsibility for environmental policy
Environmental policy on materials, chemicals, and waste
Environmental policy on energy consumption and GHGs

Improvement areas

Medium priority	Basic environmental policies: lacks details on specific issues
Low priority	No supporting evidence of quantitative target set on air pollution
Low priority	No supporting evidence of policies on air pollution

Environment | Endorsements Impact on score ●○○○

● ↗ 100/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Strengths

Endorsement of the SmartWay program by the US EPA (Partner)

Environment | Measures Impact on score ●●●●

● ↗ 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Use of logistics/load optimization software and/or procedure to improve efficiency

Reduction of internal wastes through material reuse, recovery or repurpose

Reduction of carbon emissions in transportation

Training of employees on energy conservation/climate actions

Internal sorting & disposal of waste according to waste streams

Other actions to reduce energy consumption/GHG emissions

Other actions to manage waste

Training of employees on waste reduction and sorting

Environmental emergency measures in place

Actions to prevent emissions of atmospheric pollutants and other environmental nuisances (e.g. noise, odor, vibration, road and light)

Improvement areas

Low priority No supporting evidence of purchase or generation of renewable energy

Low priority No supporting evidence of reduction of material consumption through process optimization

Low priority No supporting evidence of the implementation of a climate change recovery and adaptation plan for the company's operations

Low priority No supporting evidence of the execution of a climate change physical risk and impact assessment for the company's operations

Low priority No supporting evidence of actions for labeling, storing, handling, and transporting hazardous substances

Environment | Certifications Impact on score ●●●○

● → 0/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Improvement areas

Medium priority No supporting evidence of ISO 14001/EMAS certification

Environment | Reporting Impact on score ●●●○

● ↘ 25/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Total gross Scope 3 GHG emissions reporting value confirmed in supporting documentation
Reporting on total energy consumption
Reporting on total gross Scope 1 GHG emissions
Reporting on total gross Scope 2 GHG emissions (market or location based)
Total gross Scope 2 GHG emissions reporting value confirmed in supporting documentation
Total gross Scope 1 GHG emissions reporting value confirmed in supporting documentation
Reporting on total gross Scope 3 GHG emissions

Improvement areas

High priority Insufficient reporting on environmental issues
Low priority No supporting evidence of reporting on the total weight of air pollutants
Low priority No supporting evidence of external assurance or verification of the sustainability reporting
Low priority No supporting evidence of reporting aligned with a sustainability reporting standard (such as GRI, ESRS, IFRS)
Low priority No supporting evidence of materiality analysis conducted to identify relevant sustainability issues
Low priority No supporting evidence of reporting on the total amount of renewable energy consumed
Low priority No supporting evidence of reporting on the total weight of hazardous waste
Low priority No supporting evidence of reporting on the total weight of waste recovered
Low priority No supporting evidence of reporting on the total weight of non-hazardous waste
Low priority No supporting evidence of reporting on the total gross Scope 3 downstream GHG emissions

Labor & Human Rights Impact on score ●●●●

● ↗ 86/100

Labor & Human Rights | Policies Impact on score ●●●●

● ↗ 100/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Labor and human rights policy on working conditions
Exceptional policies on major labor and human rights issues
Quantitative targets set on working conditions
Quantitative targets set on employee health and safety
Quantitative targets set on career management and training
Dedicated responsibility for labor and human rights policy
Labor and human rights policy scope of application specified
Formal mechanisms to review and amend labor and human rights policy
Quantitative targets set on preventing discrimination and harassment
Quantitative targets set on child labor, forced labor, and human trafficking
Labor and human rights policy on employee health and safety
Labor and human rights policy on child labor, forced labor, and human trafficking
Labor and human rights policy on career management and training
Labor and human rights policy on preventing discrimination and harassment

Labor & Human Rights | Endorsements Impact on score ●○○○

● → 0/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority No supporting evidence of an endorsement of external initiatives or principles on labor and human rights topics

Labor & Human Rights | Measures Impact on score ●●●●

● ↗ 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Employee health & safety risk assessment
Employee health and safety emergency action plan
Actions to prevent discrimination during recruitment phase
Actions to prevent workplace harassment
Training of employees on child labor, forced labor and human trafficking
Remediation procedure in place for identified victims of child labor, forced labor and/or human trafficking
Grievance mechanism on child labor, forced labor and/or human trafficking issues
Actions to manage working hours and overtime
Actions to ensure adequate wages
Actions to promote equal opportunities for all in the workplace
Monitoring of internal controls and effectiveness of actions taken to prevent child labor, forced labor and/or human trafficking
Other actions on employee health & safety
Remediation procedure in place for victims of discrimination and/or harassment
Actions to prevent discrimination in professional development and promotion processes
Provision of skills development training
Impact assessments identifying potential child labor, forced labor and/or human trafficking
Actions to promote internal mobility
Formal discussions with employees on their career development
Grievance mechanism on discrimination and/or harassment issues
Actions to ensure equal pay for equal work
Actions to promote the inclusion of employees with disabilities
Awareness training on discrimination and harassment
Health care coverage of employees in place
Employee satisfaction survey
Family Friendly programs (FFPs) implemented (e.g. parental or care leaves, childcare services or allowances)
Flexible organization of work (eg. remote work, flexi-time)
Compensation for extra or atypical working hours
Regular assessment of individual performance

Improvement areas

Low priority	No supporting evidence of equipment or vehicle safety inspections or audits
Low priority	No supporting evidence of actions regarding working conditions (working hours, remuneration, benefits)
Low priority	No supporting evidence of training of drivers or operators on health and safety risks and good working practices

Labor & Human Rights | Certifications Impact on score ●●●○

● ↗ 50/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Strengths

Specific labor or human rights certification

Improvement areas

Low priority No supporting evidence of ISO 45001 certification

Low priority Current labor and human rights certification(s) are insufficiently stringent in their requirements. The existing frameworks lack the necessary depth and comprehensive scope to effectively address all material issues within the theme

Labor & Human Rights | Reporting Impact on score ●●●○

● ↗ 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Standard reporting on labor and human rights issues

Reporting on number of average training hours per employee

Reporting on the percentage of women employed in relation to the whole organization

Reporting on number of recordable work-related accidents

Reporting on number of days lost to work-related injuries, fatalities and ill health

Reporting on the percentage of employees from minority and/or vulnerable groups in the whole organization

Improvement areas

Low priority No supporting evidence of external assurance or verification of the sustainability reporting

Low priority No supporting evidence of reporting aligned with a sustainability reporting standard (such as GRI, ESRS, IFRS)

Low priority No supporting evidence of materiality analysis conducted to identify relevant sustainability issues

Ethics Impact on score ●○○○

● ↗ **79**_{/100}

Ethics | Policies Impact on score ●●●●

● ↗ **100**_{/100}

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

Policy on conflict of interest
Exceptional policy on ethics issues
Policy on fraud
Formal mechanisms to review and amend ethics policy
Ethics policy scope of application specified
Detailed examples available regarding ethics issues
Quantitative targets set on ethics
Policy on money laundering
Policies on corruption
Disciplinary sanctions to deal with policy violations
Employee signature acknowledgement of ethics policy
Policy on information security
Dedicated responsibility for ethics issues

Ethics | Endorsements Impact on score ●○○○

● → 0/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority No supporting evidence of an endorsement of external initiatives or principles on ethics

Ethics | Measures Impact on score ●●●●

● ↗ 50/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Training of employees on corruption and bribery prevention

Implementation of a records retention schedule

Audits of control procedures to prevent corruption

Anti-corruption due diligence program on third parties in place

Specific approval procedure for sensitive transactions (e.g. gifts, travel)

Whistleblower procedure for stakeholders to report corruption and bribery

Whistleblower procedure for stakeholders to report information security concerns

Incident response procedure (IRP) to manage breaches of confidential information

Measures for gaining stakeholder consent regarding the processing, sharing and retention of confidential information

Other actions to ensure information security

Measures to protect third party data from unauthorized access or disclosure

Awareness training to prevent information security breaches

Improvement areas

High priority No supporting evidence of corruption risk assessments

High priority No supporting evidence of information security risk assessments

Ethics | Certifications Impact on score ●●●○

● ↗ 25/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Improvement areas

Medium priority No supporting evidence of ISO 27001 certification

Medium priority No supporting evidence of ISO 37001 certification

Ethics | Reporting Impact on score ●●●○

● ↗ 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Standard reporting on ethics issues

Improvement areas

- Low priority No supporting evidence of external assurance or verification of the sustainability reporting
- Low priority No supporting evidence of reporting aligned with a sustainability reporting standard (such as GRI, ESRS, IFRS)
- Low priority No supporting evidence of materiality analysis conducted to identify relevant sustainability issues

Sustainable Procurement

Impact on score ●○○○

● ↗ 81/100

Sustainable Procurement | Policies

Impact on score ●●●●

● ↗ 75/100

A policy is a set of objectives that addresses specific sustainability issues. It shows a company's intention to reduce impact, mitigate risk or improve performance.

Strengths

- Sustainable procurement policy scope of application specified
- Formal mechanisms to review and amend sustainable procurement policy
- Dedicated responsibility for sustainable procurement policy
- Comprehensive sustainable procurement policies on both social and environmental factors
- Quantitative targets set on sustainable procurement

Improvement areas

Low priority No supporting evidence of quantitative target set on sustainable procurement

Sustainable Procurement | Endorsements Impact on score ●○○○

● → 0/100

Endorsements are your company's public adherence or commitment to meeting objectives and principles defined by a recognized third-party organization.

Improvement areas

Low priority No supporting evidence of an endorsement of external initiatives or principles on sustainable procurement

Sustainable Procurement | Measures Impact on score ●●●●

● ↗ 100/100

Measures are your company's actions to support your sustainability policies and commitments.

Strengths

Actions to prevent discrimination and harassment in the workforce of suppliers

Actions to ensure inclusive sourcing in the supply chain

Supplier assessment on environmental and social practices

Training of buyers on social and environmental issues within the supply chain

Integration of social and environmental clauses into supplier contracts

Risk assessment of adverse sustainability impacts in the supply chain

Supplier sustainability code of conduct in place

On-site audits of suppliers on environmental and social issues

Actions to build capacity and incentivize suppliers on sustainability management

Sustainable Procurement | Certifications Impact on score ●●●○

● ↗ 50/100

Certifications confirm your compliance with international standards (for example, ISO 14001, ISO 45001, ISO 37001, SA8000 or FSC Chain of Custody). They must be issued by an external certification body.

Improvement areas

Low priority No supporting evidence of certification regarding the sustainable procurement theme

Sustainable Procurement | Reporting Impact on score ●●●○

● ↗ 50/100

Reporting is based on quantitative KPIs that measure your implementation of sustainability practices.

Strengths

Standard reporting on sustainable procurement issues

Reporting on total gross Scope 3 upstream GHG emissions

Improvement areas

Low priority

Total gross Scope 3 upstream GHG emissions reporting value not confirmed in supporting documentation

Low priority

No supporting evidence of external assurance or verification of the sustainability reporting

Low priority

No supporting evidence of reporting aligned with a sustainability reporting standard (such as GRI, ESRS, IFRS)

Low priority

No supporting evidence of materiality analysis conducted to identify relevant sustainability issues

The below disclaimers apply to you if you have no contractual relationship with EcoVadis:

1. This Scorecard has a validity of twelve (12) months from the issue date. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
2. This Scorecard is based on the disclosed information and news resources available to EcoVadis at the time of assessment. Should any information or circumstances change materially during the period of the Scorecard validity, EcoVadis reserves the right to place the Scorecard on hold and, if considered appropriate, to re-assess and possibly issue a revised Scorecard.
3. This Scorecard is the intellectual property of EcoVadis and must not be: (i) copied, modified, translated, published, reproduced and/or (ii) used as part of or in connection with any other CSR/ESG assessment, unless agreed otherwise in a written agreement signed with EcoVadis.
4. This Scorecard is the confidential information of EcoVadis. Unless agreed otherwise in a written agreement signed with EcoVadis, this Scorecard and the rating must not be used by a third party as part of or in connection with any activity related to revenue generation and shared any further; it may be used only for a third party's internal purposes.
5. Only a Scorecard of a rated company having a Select subscription can be used for the purpose of ESG - linked loans and similar products offered by any financial institution outside of the EcoVadis solution.
6. The rating and this Scorecard have been prepared based on information provided by the rated company and in accordance with best industry practices and EcoVadis methodology, which may differ from those used by other companies conducting similar assessments. EcoVadis disclaims any liability for any actions and/or decisions taken by a third party, including any investment decision, based on the ratings and/or this Scorecard.
